PROFESSIONAL EXPERIENCE

Management/Leadership

- Mentored, trained, and coached a team of six technicians ensuring that they were familiar with standard operating procedures such as OSHA and FDA policies
- Ran ongoing chapter recruitment events and organized the sign ups, volunteers and recruitment material
- Created status reports for our student organization that consisted of our short-term action items, long term goals, accomplishments, concerns, and notes
- Recruited professional professionals to speak at our organizational meetings this semester including Google, Home Depot, and Booz Allen Hamilton
- Conducted interviews with supervisor and was involved in the direct selection of candidates for employment utilizing the Situation, Task, Action, Result method.

Development

- Developed a lawncare website for client as ScrumMaster on a team of 5 members applying the Agile methodology
- Programmed a Coffee shop application that allowed the user to create, read, update, and delete orders utilizing HTML, CSS, JavaScript, jQuery, AJAX, and JSON
- Created a car app Android application with Java and XML that allowed a user to move between activities and allowed them to calculate the cost of cab fare and car washes
- Competed at U.S. Information Technology Collegiate Conference in C#, Java, Database, and System Analysis and Design
- Worked with C, C++, and TCL code used to test microchips for functionality on Linux-based test stations
